Erasmus Kladno

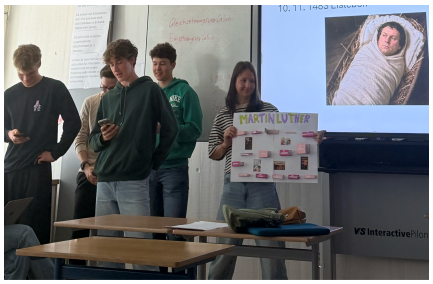

Presentations at school

Each czech and german group had prepared presentations on different people explaining what they did and how they affected today's living

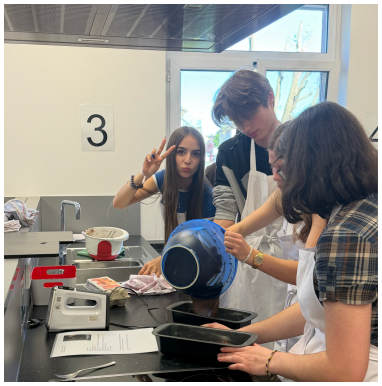

The blue house

After a break where everyone got to explore Breisach for themselves,we walked to the blue house where a jewish family used to live and got to lern a lot about the judes lifes in Breisach.We also went to a jewish graveyard where a lot about the unfortunate events that took place there were explained to us.

Cooking together

We were in mixed groups and each group had to cook something different so that together we had many different meals to enjoy.The whole point of the cooking was to cook with food that would've been thrown in the trash because it wasn't ``perfect``.We cooked for a few hours,bonded,and had a delicious dinner at the end.
