

czech exchange

monday, 20.04.2026

The czech exchange students arrived at our school at 8am. We greeted them and walked over to the outside sports ground in front of the school building. The czech students then proceeded to hand us bags with the „changes are timeless“ logo on it that were filled with water bottles and a sticker.

In order to get to know the students, we played a game, in which we had to introduce ourselves for 1 minute to each other and then switch partners.

Afterwards we went inside and all sat in a big circle. For the second game, we all had two pieces of paper. On one piece, we had to write our name, on the second any question that could be interesting. The papers got mixed and everyone had to blindly choose a name and read the question to them. For the last activity before lunch break, we got put into groups of four or five of mixed students from germany and czech republic. In these groups, we did a city-rally of Breisach where we walked around most of Breisach, answered questions and learned about the history of Breisach. It was very fun even though we had to walk quite a while. When everyone had finished all the questions, Miss Kasová and two students picked up pizzas at an italian restaurant. We sat outside the school and shared the food while talking and laughing with each other. After we cleaned up after ourselves, we got changed to play volleyball. Mister Beck is a sports teacher so he lead the activity. We had music playing in the background and the students on the side were cheering for the players. We had so much fun. At around 15:30 our day with the czech students was over.
